

Commitment charter

The Fit For Nuclear commitment charter aims to facilitate and instil best practice and good relationships among all companies completing the F4N programme.

As a Fit For Nuclear company, we will:

- Ensure nuclear safety is our overriding priority.
- Apply rigorous standards for health, safety, security and protection of the environment.
- Maintain the highest standards of honesty, integrity and ethical practice.
- Commit to continuous improvement and knowledge-sharing for mutual benefit.
- Engage constructively with other parties, and treat them as we would wish to be treated.
- Act at all times to protect and maintain the reputation of our industry and other F4N companies.
- Foster and encourage a questioning attitude and ethos throughout our business.
